• High rate of success were "drooling", "following people", "panting", "pacing" and "hiding".

• **94 % owner satisfaction**

Percent success

A.L Pike et al. / Journal of veterinary Behavior 10 (2015) 324-331

ANXITANE Tablets

are usually the first thing I reach for in cases of stress-related behaviour for both dogs and cats because they are palatable, well-tolerated, and effective."

Amy L. Pike, DVM, DACVB

Veterinary Referral Centre of Northern Virginia

Turn fearful cats into friendly, free spirits

**Help keep cats calm when facing
stress triggers such as:**

Unfamiliar
people

Unfamiliar
pets

New
smells

Change in
environment

Crates
or carriers

Loud
noises

Sure signs that a cat is stressed.

- Unfriendly behaviour
- Tendency to run away or hide
- Cowering, trembling, or lying motionless
- Eliminating outside of the litter box
- Drooling

Remember

Cats struggle with stress just like dogs.
ANXITANE Tablets are an obvious choice for
cats of an obvious choice for fussy felines.

Derived from green tea

proven by science

Two open field trials showed that ANXITANE Tablets effectively reduce environmentally induced stress in dogs and cats.

Average global scores for **stress in dogs.**

In an open field trial of 32 dogs living with environmentally induced stress: ⁴

- ANXITANE Tablets were administered twice daily for 60 days
- Examinations and behavioural evaluations were done on days 0, 15, 30, and 60

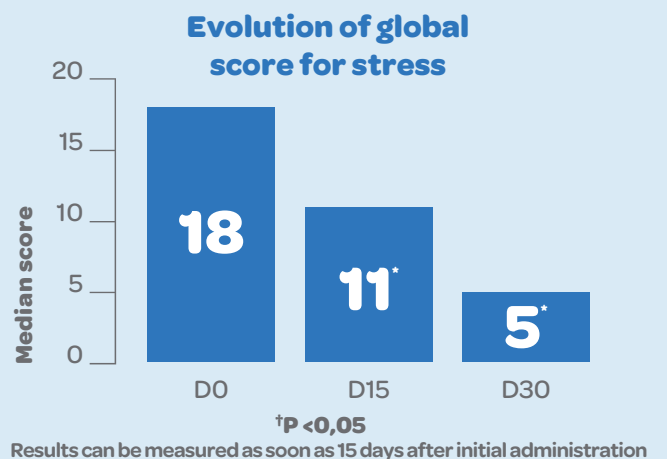

By Day 60, the average stress score was reduced by 59,2%

Average global scores for **stress in cats.**

In an open field trial of 33 cats living with environmentally induced stress: ⁵

- ANXITANE Chewable Tablets were administered twice daily for 30 days
- Examinations and behavioral evaluations were done on Days 0, 15, and 30

By Day 30, the average score of stress was reduced by 62,1%

Help pets lead a tranquil life

Add a proven complementary feed containing a natural source of green tea to a stressed pets' diet.

ANXITANE Tablets are:

- Supplements containing a natural source of L-theanine⁽³⁾
- A tasty choice enjoyed by both cats and dogs⁽³⁾
- Safe without causing drowsiness⁽³⁾
